

Industrial Designer, Researcher, Educator

Professional Experience	Hyundai Motor Group x RISD Interpreter Jul – Aug 2026	• Provided accurate, fluent, and culturally sensitive real-time interpretation between Korean and English. • Supported communication across lectures, small-group workshops, design critiques, and discussions. • Interpreted technical terminology in biodesign, biomimicry, and design thinking. • Translated written materials, handouts, and workshop feedback as needed. • Maintained confidentiality, professionalism, and neutrality throughout the program.	
	Brown Pre-College Teaching Assistant, Digital Product Design Jul 2026	• Coordinated daily course logistics, including digital and physical instructional materials, classroom activities, and faculty support with Figma and Canvas. • Served as a primary point of contact for students, facilitating communication between students and instructors. • Supported an engaging, inclusive classroom through facilitation, individualized feedback, and responsive support.	
	Rhode Island School of Design Graduate Research Intern, Teaching & Learning Lab Feb – Jun 2026	• Supported faculty development initiatives through educational research, workshop planning, and online resource creation. • Collected and synthesized qualitative data to inform faculty programming and institutional improvement. • Designed and updated the T&LL website in Drupal to reflect current content, events, and educational resources. • Collaborated with faculty, graduate researchers, and campus partners on teaching and learning initiatives.	
	Rhode Island School of Design Graduate Exhibition Designer & Project Lead Jan – Jun 2026	• Led planning and execution of the Teaching + Learning in Art and Design department's RISD Graduate Exhibition space from concept through installation. • Coordinated schedules, communications, and logistics across faculty, staff, vendors, and student teams. • Produced exhibition graphics, printed materials, and signage in Adobe Creative Suite. • Managed multiple deadlines while keeping the project on track.	
	Project Open Door x RISD Teaching Artist Sep – Dec 2025	• Facilitated studio-based learning experiences for high school students. • Developed instructional materials, presentations, and assessments that supported diverse learning needs. • Integrated collaborative learning, formative assessment, and continuous feedback into classroom instruction.
